

# STAKEHOLDER PERCEPTIONS

## About us

The range of these services have been developed as a result of extensive experience as inspectors and our continuous detailed analysis of inspection reports. Our aim is to provide clients with a customised service tailored to meet your individual needs and support you in continuing to improve the quality of your provision.

Through a bespoke reveal project, our expert team gather learner and employer perceptions. We gather accurate and timely feedback from different groups of stakeholders that underpins effective quality improvement processes and can be used extensively as a source of evidence in your self-assessment. Typically, this involves our team making contact with around 20 learners and employers to collect and record feedback about the key aspects of your provision.

## Example stakeholder questions

1. What can you do/do you know now that you didn't at the start of the programme?
2. How frequently do you receive progress reviews?
3. How is English, Maths and ICT incorporated into your learning?

## How it works

Our expert team will help you to define the survey sample from your current (and recent) learner population, to ensure that feedback is targeted from key stakeholder groups.

For example, you may wish to:

- a) investigate the differing experiences and outcomes by particular groups of learners (i.e. 16-19, LAC, 50+, ex-offenders ....)
- b) take a 'snap-shot' across a number of academic levels and programme types that you deliver
- c) follow an Ofsted 'Deep-dive' approach and focus on one theme across a number of programmes ( i.e Careers advice and guidance)

Typically, this involves our team making contact with around 20 learners and employers to collect and record feedback about the key aspects of your provision.
