

# QUALITY CHAMPION TRAINING

## About us

We offer expert quality improvement services through our sister company ALIN. The range of these services have been developed as a result of extensive experience as inspectors and our continuous detailed analysis of inspection reports. Our aim is to provide clients with a customised service tailored to meet your individual needs and support you in continuing to improve the quality of your provision.

***Encourage your team to be proactive in their inspection approach, by building motivation and momentum. Your nominee will benefit from well-trained, quality champions leading up to and during inspection.***

The Quality Champion training event prepares managers and staff for the expectations of a future inspection by providing them with a detailed and comprehensive understanding of what constitutes high quality education and training. During this course, delegates will gain a thorough understanding of the educational and inspection framework, and how inspectors gather evidence for forming judgments. They will also be able to evaluate their own training provision so they can highlight and demonstrate current good practices, identify areas that need improving, and address them quickly. Quality champion delegates will use the training activities, scenarios and resources to become more confident and focused on developing their own knowledge and understanding.

## How it works

Delegates on this innovative, interactive one day training programme will gain insights into inspection methodology, the EIF and how inspection teams evaluate evidence. This course uses experiential learning methods to embed knowledge in an informative and engaging way that leaves delegates with a clear understanding of how to:

- support the drive for continuous quality improvement
- report internally on specific areas of provision, contextualised to the EIF
- take responsibility and actioning improvements
- identify and triangulate appropriate evidence to support strengths of the provision
- develop the communication skills and confidence to effectively present evidence to inspectors
- respond appropriately to inspection interim findings

## Duration

We will deliver at your preferred site over one day.
