

Inspection Readiness Review

About this service

Our Inspection Readiness Review is a practical, bespoke 2.5-hour session designed to guide your team through the entire inspection process under the new framework and prepare an action plan for preparation. Through professional discussion, our adviser helps you to recognise and articulate your provision's strengths, and demonstrate the evidence needed to demonstrate impact confidently during inspection.

Why is this beneficial?

Many providers are entering inspection without confidence, clarity, or shared understanding of how the new inspection framework will be applied in practice. Common challenges include:

Uncertainty about expectations

1

2 Inability to articulate impact convincingly

Fragmented inspection readiness

3

4 Over-reliance on historical paperwork

Anxiety and inconsistency under pressure

5

6 Limited time for meaningful preparation

From our knowledge behind the scenes, confidence and clarity of data, with the ability to demonstrate impact through professional dialogue is more critical than ever.

Many strong providers are at risk not because their provision is weak, but because they are not fully prepared for how inspection now unfolds in practice. Leaders often ask: Are we ready? Can we evidence our strengths clearly? Will our team respond confidently to challenge?

Inspection Readiness Review

What you can expect

Through a **2.5 hour** remote session with up to 6 of your key inspection champions, our adviser will:

- Simulate the inspection journey from the initial notification call to the final feedback, so you know exactly what to expect.
- Explore your strengths and identify areas for improvement.
- Promote the build of an evidence action plan to ensure you have the right documentation and examples ready to demonstrate impact.
- Review the inspection schedule and structure to provide understanding of meetings, focus areas, and how to showcase your provision effectively.
- Prepare you for challenge. Learn how to respond confidently and present evidence that supports improvement and impact.
- Contextualise key areas such as inclusion, the secure fit model, and grading criteria into evidence that your organisation can specifically provide.

Why choose FIN?

- Our involvement in early inspections means we understand how the framework is being applied in practice.
- Our highly interactive workshop encourages professional discussion, constructive challenge, and evaluative thinking.
- Leave with a clear action plan, concluding with verbal recommendations to sharpen priorities and build confidence.

Who is it for?

Providers seeking assurance and clarity in their inspection preparation; particularly those wanting to:

- Understand how the new framework is applied in YOUR context.
- Test readiness against real-world expectations.
- Strengthen leadership confidence and strategic focus.
